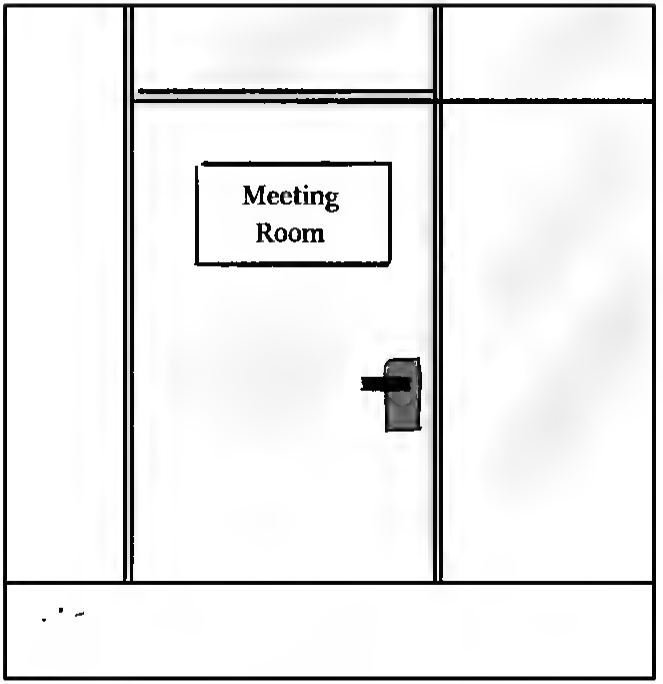
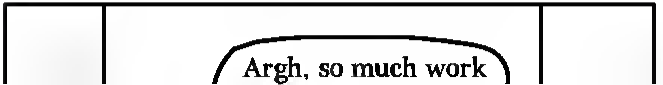
ROAR STREET JOURNAL

Breaking The Wall



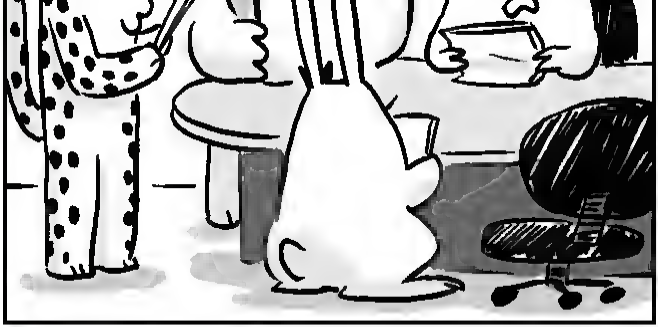
Meeting
Room



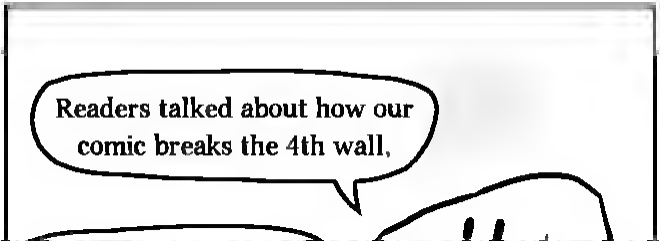
Argh, so much work

to do these weeks!
How come overtime work exists in the RSJverse?!

Complaining doesn't do any help to the company.
Please focus on discussing new topics for RSJ.
Yes, yes...



I have a suggestion.



Readers talked about how our comic breaks the 4th wall.

some other comics also use this feature too.
Perhaps we can elaborate on this topic...
And have fun!
This is a great idea Doglas! Let's do it!

Therefore,

RSJ is breaking the 4th wall in this episode.

I'm going to have so much fun!
I need some stress relief from work!

CRASH

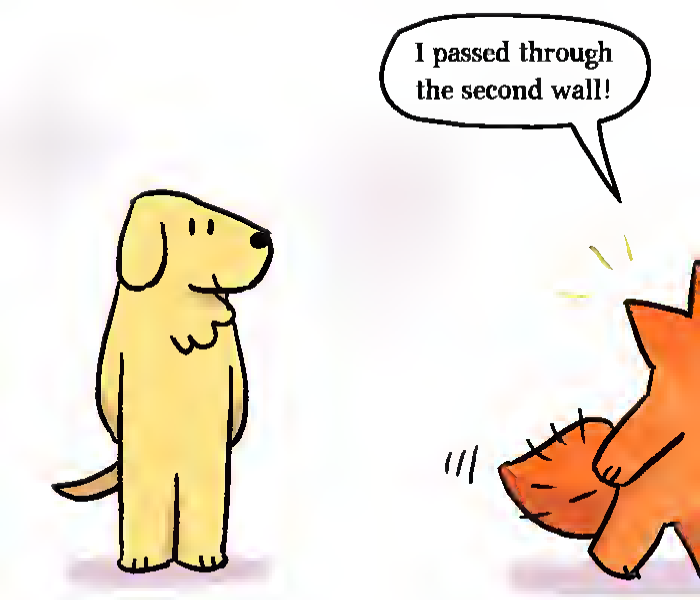
...Did I break the screen of 10k RSJ readers?

Although some refer "breaking the 4th wall" as in breaking free from a confined room,
Technically speaking, there are more than 4 walls in a room.

I know...
I hit the left wall...

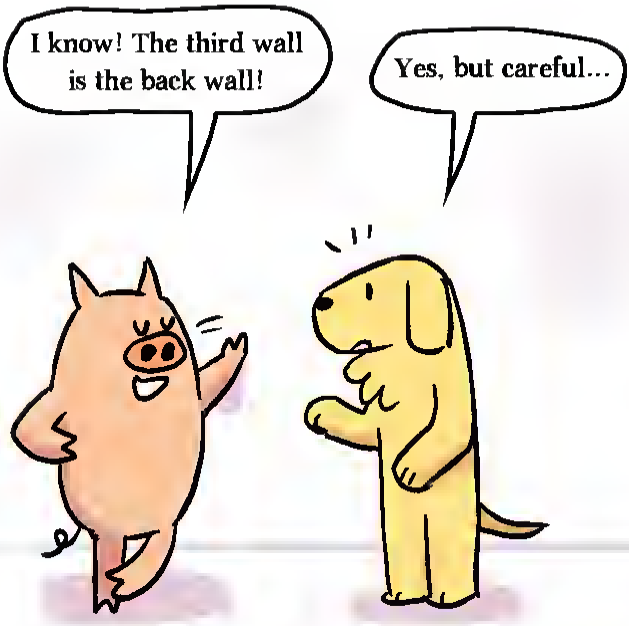
How about the right side?

How about the right side?
It's the second wall!



I passed through the second wall!

Huh?
Hi Foxy.

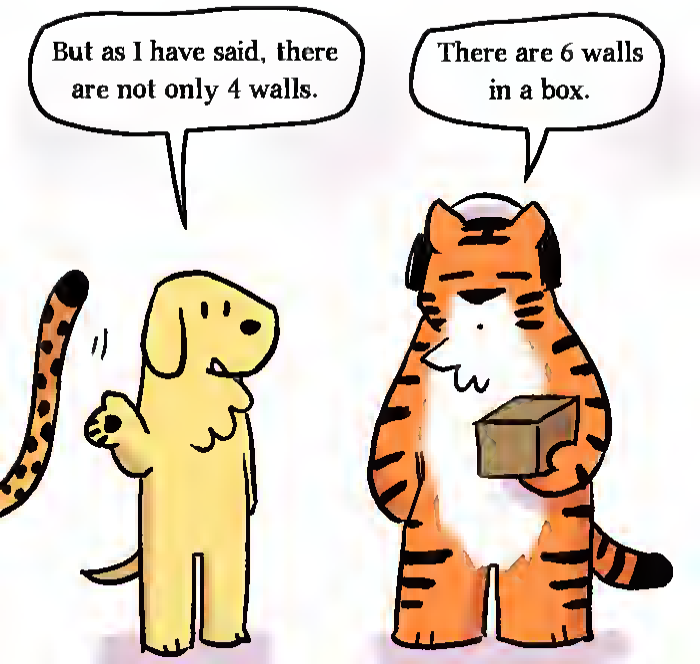


I know! The third wall is the back wall!
Yes, but careful...

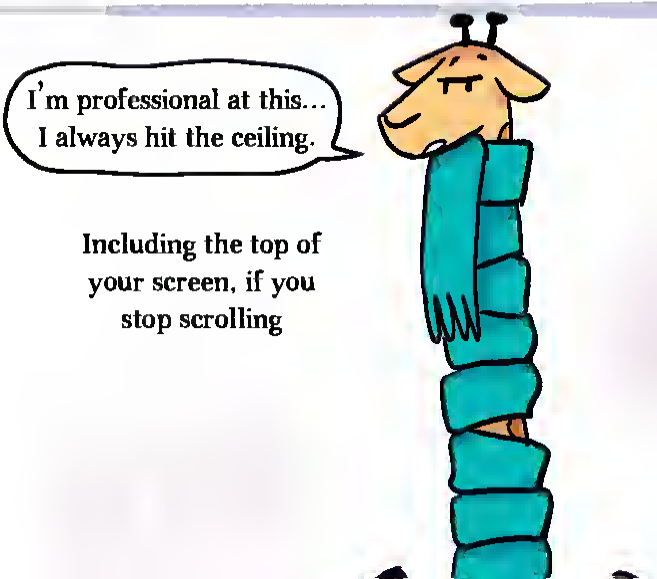
Woah!

Oh, hello Po.
Someone help me up!!

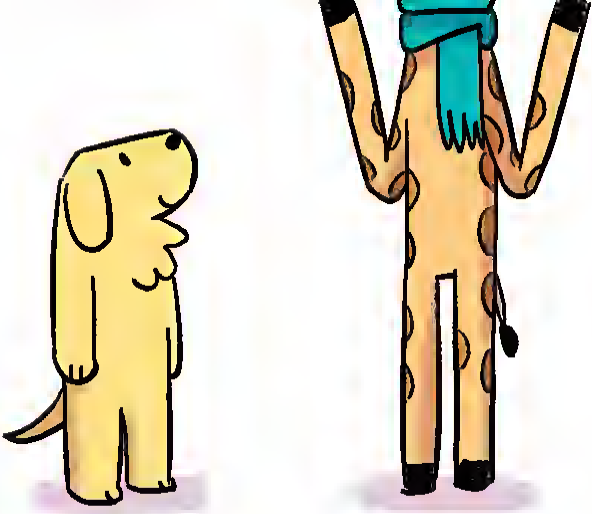
And finally, the forth wall is the side that we are facing.
Hi RSJ readers.



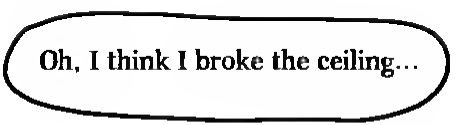
But as I have said, there are not only 4 walls.
There are 6 walls in a box.



I'm professional at this... I always hit the ceiling.
Including the top of your screen, if you stop scrolling



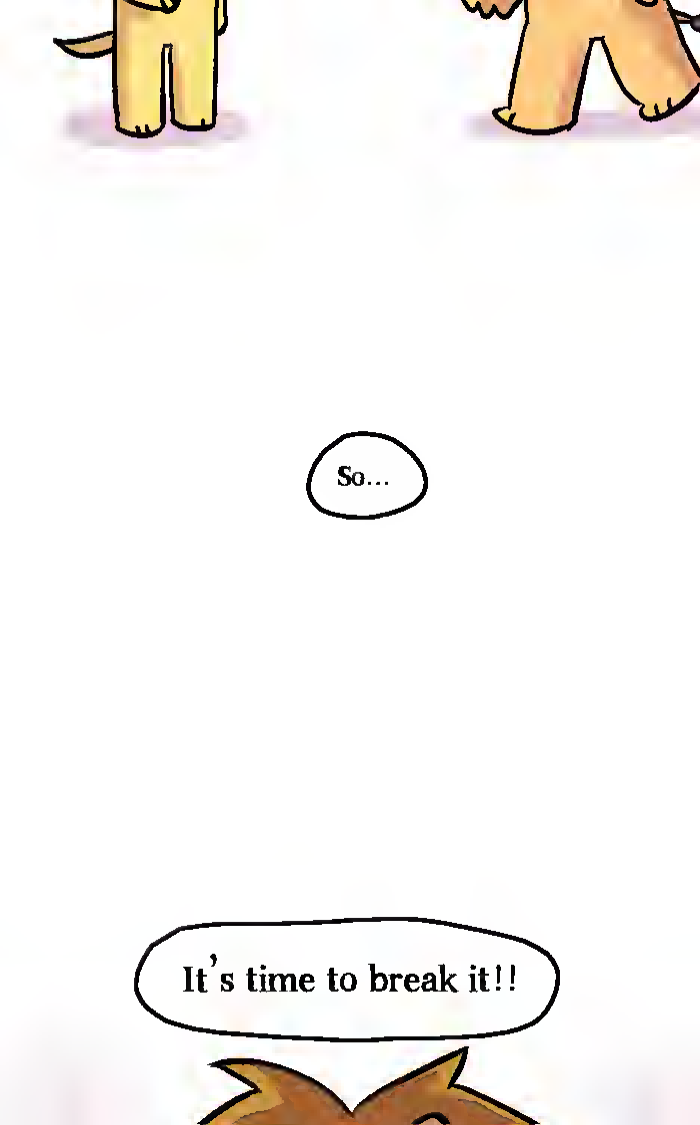
CRASH



Oh, I think I broke the ceiling...

Huh? Why am I at the bottom of the screen?
Well, you can enjoy being short for once.

We've been talking about walls for the whole episode and we never break the 4th wall!



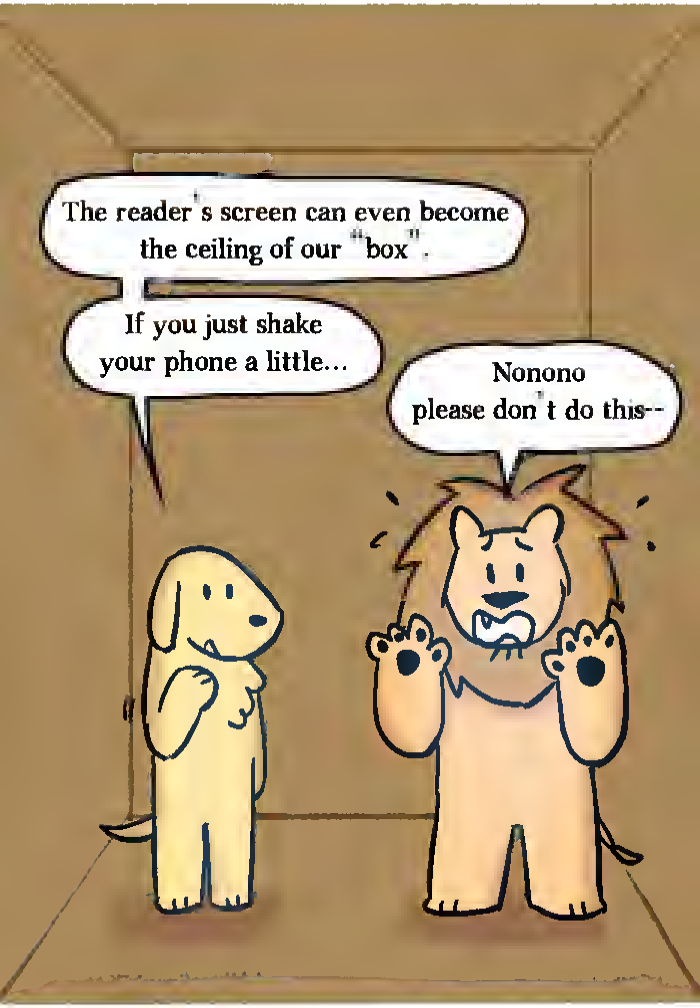
So...
It's time to break it!!

The 4th wall is invisible, Leo…

OWWW....

In my opinion, the 4th wall is the reader's screen.
but it's not limited to a fixed wall.
1
3
2

So from the reader's view, we are trapped in a box inside their screen?
You can say so.
I don't like this idea...



The reader's screen can even become the ceiling of our "box".
If you just shake your phone a little...
Nonono please don't do this--

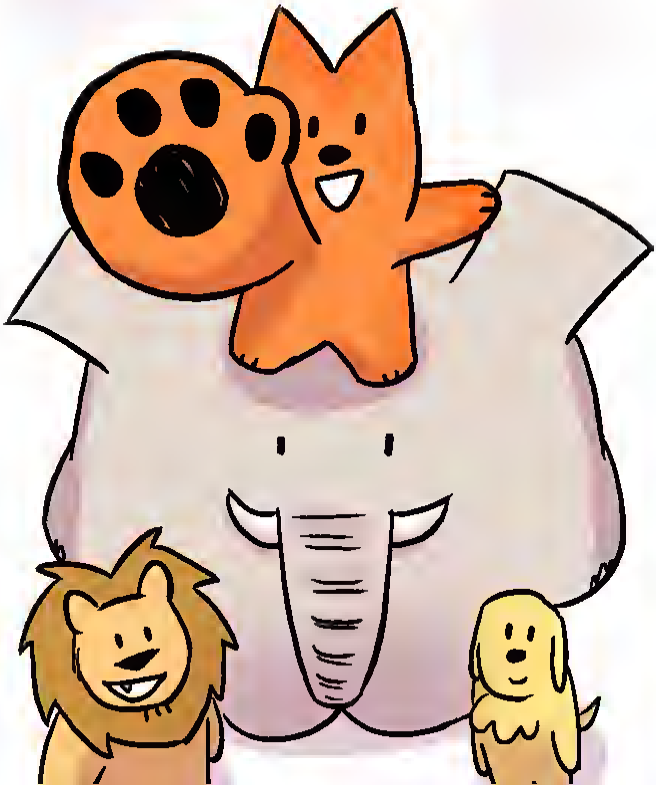
Reader

I'm gonna throw up

Leo,
are you alright?

Well, I think we had enough fun with the 4th wall.

But no matter how many walls are there...



The most important wall is the invisible wall of the heart.
